

HELEN V. HOLMES

Résumé

IS A FREELANCE BRANDING AND GRAPHIC DESIGNER.

I create brands, design logos, make illustrations, organize website mockups, build print collateral, and animate shorts. In January of 2017 I cofounded Contra Studios, a design and branding shop which my partner and I run from New York, New York.

I've given talks at conferences all over the world on one of my favorite topics: where design and technology intersect. I write on the subject along with mental health, immigration, and web development on my website.
